ABSTRACT

This report presents comprehensive data on higher education activities in North Carolina in 84 tables and 17 graphs. Data were compiled from forms completed by the individual institutions in the summer and fall of 1997. Data are usually presented separately for individual institutions by institution type--public institutions, private institutions, junior colleges, and seminary/bible colleges. Tables and graphs are grouped into the following categories: (1) current enrollment, (2) enrollment trends, (3) undergraduate transfers, (4) degrees conferred, (5) faculty, (6) library resources, (7) costs to students, (8) admissions, (9) student financial aid, and (10) student housing. PREFACE

The University of North Carolina presents the thirty-first annual Statistical Abstract of Higher Education in North Carolina. This abstract covers the breadth of higher education activities in the State in their quantitative aspect, from simple counts of enrollment and degrees conferred to complex analyses of the flow of student transfers among institutions. This wide range of information, collected and published annually, should be useful to members of the public and to planners and educators in educational institutions and government agencies. It is hoped that the information will aid in the more effective use of resources allocated to higher education.

The data for the abstract were assembled by the Program Assessment and Public Service Division of the General Administration of the University of North Carolina from information supplied by the colleges and universities. I especially wish to acknowledge the work of Linda Balfour and Arlene Spivey of the General Administration staff for their meticulous care in assembling and editing the abstract and the computing staff for generating data. Acknowledgement is also due to assisting officials at the institutions, public and private, for their continuing and wholehearted cooperation. To all, I express my sincere appreciation.

INTRODUCTION

The Statistical Abstract of Higher Education in North Carolina, 1997-98 has been compiled to give a detailed statistical view of higher education in North Carolina. This abstract presents both past and current (1997-98 academic year) information. It is designed to provide legislators, educators, and other interested citizens of North Carolina with a statistical account of higher education in this State. From this abstract, the reader can gain some knowledge about who is being educated, where they are being educated, and the resources supporting their education.

The data reported herein were compiled from forms mailed to the individual institutions by the Program Assessment and Public Service Division of General Administration of the University of North Carolina in the summer and fall of 1997 for processing during the 1997-98 academic year. The forms are designed to satisfy both Federal and State data requests (see Appendix A).

The staff of the Program Assessment and Public Service Division makes every effort to verify the validity and reliability of the data reported by the institutions. The ultimate responsibility for the accuracy of the data, of course, lies with the individual institutions since they originate the reports on which this abstract is based. In certain instances discrepancies may appear to be present, when in reality the data reported may reflect different interpretations of definitions by respondents in different institutions. Wherever possible, these apparent discrepancies are explained by footnotes. For example, because of its unique student body, which consists of both college and high school students, data for North Carolina School of the Arts may not be directly comparable to other institutions in some tables in which they are presented.

CURRENT ENROLLMENT

The North Carolina Community College System has changed from a quarter calendar to a semester calendar and has gone through a re-engineering process. In previous Statistical Abstracts, community college enrollment has been referred to as college transfer enrollment (for the college transfer program) or total curriculum enrollment (for total resident credit enrollment). In Fall 1997, the college transfer designation has been changed to "Associate Degree Students," which includes students enrolled in AA, AFA, AS, and AGE programs. The Associate of General Education (AGE) is not a college transfer associate degree and is not part of the Comprehensive Articulation Agreement; however, students in this degree program may take courses that have been approved for the Comprehensive Articulation Agreement and are included in the category of "Associate Degree Students." Students in the Associate of Applied Science (AAS) are excluded from this category.

SECTION II

ENROLLMENT TRENDS

There are policy changes at three campuses. The enrollment for Campbell University is approximately half what it has been prior to Fall 1991 because in prior years credit extension enrollment was included in their reports on resident-credit enrollment. Mount Olive College and Montreat College now include an off-campus site in their resident-credit enrollment, per instructions from their accrediting agency, because of the proximity of the off-campus site to the main campus.

Barber-Scotia College did not provide resident-credit enrollment for fall 1991. Where data are missing, there will be dashes (-).

SECTION IV

DEGREES CONFERRED

In 1983-84 the National Center for Education Statistics and the Office for Civil Rights - both within The Department of Education - adopted a new Classification of Instructional Programs (CIP) for reporting degrees conferred by colleges and universities in the United States. This classification system includes 40 major categories of degree programs, 36 of which apply to the bachelor's, master's, doctorate, and first professional degrees offered by North Carolina senior colleges and universities. This classification system was updated in 1992.

An earlier classification system - the one used to report degrees conferred in Abstract tables since the 1970-71 academic year - has been retained by the University of North Carolina for all purposes other than meeting official federal reporting obligations. For this reason, and for the purpose of maintaining comparability with Abstract data reported on degrees conferred in past years, the table formats for reporting degrees conferred in this section continue to use the former discipline categories. The crosswalk between the current CIP and these categories is presented in Appendix C. Readers may obtain more detailed data by academic degree program level in CIP categories on the web site referenced on the cover of this publication.

Note: In the fall of 1991, the method of calculating the average SAT score for the University of North Carolina and its constituent institutions was changed to accomodate score data in unit record, rather than frequency distribution, format. Score averages dating back to 1981 have been revised to reflect the new method. All of these scores are recentered.

Note: The College Board has advised colleges and universities to report median and quartile scores in addition to simple averages. The top quartile is the SAT score in which 25% of students score that high or higher. The median is the SAT score in which 50% of students score that high or higher. The last quartile is the SAT score in which 75% of students score that high or higher. All of the scores are recentered.

Note: The College Board has advised colleges and universities to report median and quartile scores in addition to simple averages. The top quartile is the SAT score in which 25% of students score that high or higher. The median is the SAT score in which 50% of students score that high or higher. The last quartile is the SAT score in which 75% of students score that high or higher. All of these scores are recentered.

NOTE: The allocations shown above were made under the State Contractual Scholarship Fund (SCSF) program to North Carolina resident undergraduate students attending private colleges and universities in North Carolina. For 1997-98, the allocation made to each institution was determined by multiplying the number of full-time equivalent North Carolina resident undergraduates enrolled by $750.00. The funds so allocated were then granted by the institutions to their North Carolina undergraduate students on the basis of financial need. The General Assembly appropriated $19,549,884 for the SCSF program for the 1997-98 academic year. The shortfall in the SCSF program was covered by past year refunds to the program and a budget transfer of $32,390 made through The University of North Carolina by direction of the Governor.

Administration of the SCSF program which was established by the North Carolina General Assembly in 1971, was transferred to the North Carolina State Education Assistance Authority in July 1993.

* Awards were rounded to the nearest dollar.

APPENDIX B

DEFINITIONS OF TERMS

The definitions below are intended to facilitate the better understanding of information presented in this report. These are selected from the University of North Carolina's reporting forms and the US Department of Education's Integrated Postsecondary Education Data System forms.

1. ENROLLMENT, unless otherwise noted, refers to the headcount resident-credit enrollment. The resident-credit enrollment includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree. This excludes students in extension, correspondence, adult education, audited courses, short courses, and those enrolled for individual lessons only.

Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. This classification includes students in junior and community colleges in programs transferable to four-year institutions.

First Professional includes students who are in a professional school or program (law, medicine, dentistry, pharmacy, veterinary medicine, and theology) which requires at least two or more years of previous college work for entrance.

Graduate includes students who have attained at least one standard bachelor's degree or first professional degree and who are or might be candidates for a master's or doctorate degree.

First-Time Freshman includes new students who have not attended college prior to the immediately previous summer sessions. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

Special/Unclassified includes students who are not candidates for a degree, diploma, certificate, or equivalent award, although taking courses in regular classes with other students.

Full-Time Student includes students registered for 12 or more semester credit hours as undergraduate or 9 or more semester credit hours as graduate or first professional students.

Part-Time Student includes students registered for less than the required full-time load.
